

FEDNEL CHARITÉ

Full Stack Software Engineer • DevSecOps Mindset

Port-au-Prince, Haiti • +(509) 3155 4716 • contact@fednelcharite.site
github.com/feddy509 • linkedin.com/fednelcharite • fednelcharite.site
Open to Remote / Hybrid Roles (Local & International)

PROFESSIONAL SUMMARY

Full Stack Developer with a security-first mindset, specializing in the React/Next.js and Node.js/NestJS ecosystem. Founder of a software development agency, with hands-on experience taking products from first requirement through architecture to production. Focused on clean code, automated testing, and secure-by-design (DevSecOps) practices at every stage of the development lifecycle. IBM-certified in Full Stack Software Development and Software Engineering & DevOps, currently completing a Bachelor's degree in Computer Science. Open to joining a remote-friendly engineering team, local or international, that values security and code quality as much as speed.

TECHNICAL SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Bootstrap 5

Backend: Node.js, NestJS, Express.js, Python (Django, Flask)

Databases: PostgreSQL, MongoDB

Architecture & APIs: REST APIs, Microservices Architecture, System Design

Security & DevSecOps: Secure Coding (OWASP Top 10), Vulnerability Scanning (SonarQube, Snyk), Docker, CI/CD (GitHub Actions), Linux

Tools & Methodology: Git/GitHub, Figma, Agile/Scrum

PROFESSIONAL EXPERIENCE

Founder & Full Stack Developer - Solutions Technologie Hub

Remote, Haiti | June 2026 - Present

- Founded and lead a software development agency, overseeing full-cycle delivery from client requirements through architecture, development, and deployment.
- Designed and built the agency's multi-page company website end-to-end (HTML5, CSS3, JavaScript, Bootstrap 5) - Home, About, Services, Portfolio, Partners, and Contact.
- Lead ongoing development of client platforms, including a media/journalism CMS with multi-author publishing rights and a photography portfolio platform with an admin dashboard for content and promotions management.

Co-Founder & Full Stack Developer Zye Klere

Remote, Haiti | August 2026 - Present

- Co-created a cybersecurity and digital-security awareness SaaS platform for the Haitian community, aligning product decisions with practical security education.
- Designing planned platform features, including a security-awareness article system, video tutorials, and a password/email exposure checker.

PROJECTS

Web Security Checker (Personal Project) Built a website vulnerability scanner in open Source that verifies SSL/TLS certificates, inspects HTTP security headers, and flags common misconfigurations, generating a detailed security report. Released as open source so other developers can contribute, following OWASP-aligned secure-by-design principles.

Personal Portfolio - fednelcharite.site - Built a bilingual (EN/FR) portfolio site with Next.js, React, TypeScript, and CSS Modules.

SYGEPREM - Medical Appointment Management System (Capstone Project) - Medical appointment booking and management application built with React.js.

EDUCATION

Bachelor's Degree (Licence) in Computer Science

UNITECH, Haiti | Expected Late 2026

CERTIFICATIONS

Completed: IBM Full Stack Software Developer Professional Certificate • IBM Software Engineering & DevOps Professional Certificate • IBM Full Stack JavaScript Developer • IBM Front-End Developer.

In Progress: Cisco Cybersecurity Certification • CompTIA Security+ • AWS Certified Developer Associate • Microsoft Azure Developer Associate.
